TVP TACO BOWLS

557 CAL | 48 G PROTEIN | 95 G CARBS | 6 G FAT

A flavorful, high-protein taco bowl featuring seasoned TVP, fresh veggies, and hearty black beans, perfect for easy meal prep and satisfying lunches

MATERIALS

INGREDIENTS FOR 4 SERVINGS

Textured vegetable protein (TVP)	3 cups (288 g)
Onions	2 medium (110 g each)
Red bell pepper	1 medium (119 g)
Cabbage	4 cups (527 g)
Taco seasoning mix	2 tbsp (18 g)
Tomato	1 medium (123 g)
Cilantro	1 cup or handful (16 g)
Black beans, canned	1 cup (172 g)
Corn, canned	1 cup (164 g)
Corn tortillas	4 medium (about 57 g each)
Salsa	½ cup (130 g)
Guacamole	4 tbsp (60 g)

INSTRUCTIONS FOR 4 SERVINGS

1. To hydrate the TVP, combine it with hot water in a 1:1 ratio. For this recipe, mix 3 cups (288 g) of TVP with 3 cups (711 g) of water. Allow it to sit for 10 minutes.
2. While the TVP rehydrates, dice 2 medium onions (110 g each) and add them to a pan.
3. Over medium-high heat, sauté the diced onions. If your pan isn't non-stick, add a dab of salsa to prevent sticking.
4. Chop up 1 red bell pepper (119 g) and thinly slice 4 cups (527 g) of cabbage. Add both to the pan with the onions.
5. Once the TVP is rehydrated, add it to the pan as well. Season with 2 tbsp (18 g) of taco seasoning. Continue to cook for 3-5 minutes, stirring occasionally.
6. Separately, chop 1 medium tomato (123 g) and a handful of fresh cilantro (16 g).
